INDEPENDENT AUDITOR'S REPORT

The Selectboard
Town of Guilford, Vermont

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Guilford, Vermont (the Town) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Guilford, Vermont as of June 30, 2021, and the respective changes in financial position thereof and the respective budgetary comparisons for the General and Highway Funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules 3 and 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The accompanying schedules 1 and 2 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedules 1 and 2 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules 1 and 2 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2021 on our consideration of the Town's internal control over financial reporting; on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements; and on other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

**TOWN OF GUILFORD, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2021**

The following is a discussion and analysis of the Town of Guilford's (the Town) financial performance, including an overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2021. Readers should consider this information in conjunction with the financial statements, which are located after this analysis. This discussion and analysis provides comparisons between FY 2021 and FY 2020.

FINANCIAL HIGHLIGHTS

Government-wide Highlights

The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at June 30, 2021, by \$5,983,578 compared to \$5,619,722 at June 30, 2020. This represents an increase of \$363,856 or 6.5%. The change in net position for fiscal year 2021 was \$363,856 compared to \$284,201 for fiscal year 2020, an increase of \$79,655.

Fund Highlights

At the end of the fiscal year, the Town's governmental funds reported a combined ending fund balance of \$3,060,192 an increase of \$642,704 in comparison with \$2,417,488 for the prior year. Of the total fund balance, \$17,670 is nonspendable, \$546,574 is restricted, \$2,265,103 is committed, \$24,810 is assigned, leaving an unassigned balance of \$206,035.

Long-term Debt

The Town's total debt decreased during the fiscal year from \$58,500 to \$39,000, a decrease of \$19,500 or 33.3%.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Town's financial statements consist of three sections; 1) Management's Discussion and Analysis, 2) Basic Financial Statements, and 3) Supplementary Schedules.

- **Management's Discussion and Analysis** - An introduction to the basic financial statements that is intended to be an easily read analysis of the Town's financial activities based on currently known facts, decisions or conditions.
- **Basic Financial Statements** - This section of the report includes government-wide financial statements, fund financial statements, budgetary comparisons for the General Fund and Highway Fund, and notes to the financial statements.
- **Supplementary Schedules** - This section of the report includes schedules 1 and 2, which are not required by accounting principles generally accepted in the United States of America (U.S. GAAP) but are presented as supplementary information. These schedules contain the combining information for individual nonmajor governmental funds. This section also includes schedules 3 and 4, which are required by U.S. GAAP. These schedules contain required historical pension information.

Government-wide Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances. The statements provide both short-term and long-term information about the Town's financial position, which helps readers determine whether the Town's financial position has improved or deteriorated during the fiscal year. These statements include all non-fiduciary financial activity on the full accrual basis of accounting. This means that all revenues and expenditures are reflected in the financial statements even if the related cash has not been received or paid as of June 30.

- **Statement of Net Position** - This statement presents information on all of the Town's assets, liabilities, and deferred outflows/inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may indicate whether the financial position of the Town is improving or deteriorating.
- **Statement of Activities** - This statement presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the Town's funds are categorized as either governmental or fiduciary.

- **Governmental Funds** - Most of the basic services provided by the Town are reported in the governmental funds. These statements provide a detailed, short-term view of the functions reported as governmental activities in the government-wide financial statements. The government-wide financial statements are reported using the full accrual basis of accounting, but the governmental fund financial statements are reported using the modified accrual basis of accounting. This allows the reader to focus on assets that can be readily converted to cash and determine whether there are adequate resources to meet the Town's current needs.

Information is presented separately in the governmental fund statements for the General, Highway, VCDP Grant, Fund Balance Reserve and Capital Projects Funds which are each considered major funds. Data from the other eighteen (18) governmental funds are aggregated into a single column on the fund financial statements. Individual fund data for these nonmajor governmental funds is provided in the supplementary schedules section.

- **Fiduciary Funds** - Fiduciary funds are used to account for resources held for the benefit of other parties. Fiduciary activity is not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The Town's fiduciary funds are the Brainard S. Gale Fund, Mrs. C.A. King Fund, King & Lynde Fund, and the Bullock Scholarship Fund.

Reconciliation of Government-wide Financial Statements to Fund Financial Statements

This report includes a reconciliation of the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities on the appropriate government-wide statements (accrual accounting). The following indicates some of the reporting differences between the government-wide financial statements and the fund financial statements.

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Long-term liabilities, except for debt service expenditures during the year, are not included in the fund financial statements. These liabilities are only included in the government-wide statements.
- Deferred inflows of resources, relating to deferred property taxes, are included in the fund financial statements to offset uncollected taxes which are not available financial resources but are excluded from government-wide statements.
- Deferred inflows of resources relating to deferred pension credits, deferred outflows of resources relating to deferred pension expense, and net pension asset or liability are reported on the government-wide statements but are excluded from the fund financial statements.
- Capital outlay spending results in capital assets on the government-wide statements but is reported as expenditures in the fund financial statements.

Because the focus of governmental funds is different from that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison can help readers better understand the long-term impact of the Town’s near-term financing decisions. The comparisons are:

- Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position.
- Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities.

FINANCIAL ANALYSIS OF THE GOVERNMENT-WIDE FINANCIAL STATEMENTS

Our analysis below focuses on net position and the change in net position of the Town’s activities. The Town’s net position for governmental activities increased from \$5,619,722 to \$5,983,578.

	Net Position as of June 30,	
	<u>2020</u>	<u>2021</u>
Current and Other Assets	\$ 3,102,118	\$ 3,789,333
Capital Assets, net	<u>3,298,484</u>	<u>3,032,836</u>

Deferred Outflows of Resources	<u>78,240</u>	<u>145,174</u>
Current Liabilities	62,647	56,616
Noncurrent Liabilities	<u>248,700</u>	<u>355,726</u>
Total Liabilities	<u>311,347</u>	<u>412,342</u>
Deferred Inflows of Resources	<u>547,773</u>	<u>571,423</u>
Net Position:		
Net Investment in Capital Assets	3,239,984	2,993,836
Restricted	2,195,352	2,829,347
Unrestricted	<u>184,386</u>	<u>160,395</u>
Total Net Position	<u>\$ 5,619,722</u>	<u>\$ 5,983,578</u>

A significant portion of the Town’s net position (50%) reflects its investment in capital assets (e.g., land, buildings, equipment, construction in progress, and infrastructure); less any related outstanding debt used to

acquire those assets (net investment in capital assets). These assets are recorded net of depreciation in the financial statements. The Town uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position (47.3%) represents restricted net position. These resources are subject to external restrictions or constitutional provisions specifying how they may be used.

The following condensed financial information was derived from the Government-wide Statement of Activities and provides detail regarding the change in net position.

Change in Net Position for the Fiscal Year Ended June 30

	<u>2020</u>	<u>2021</u>
Revenues:

Total Expenses	<u>2,259,834</u>	<u>2,070,929</u>
Increase in Net Position	<u>\$ 284,201</u>	<u>\$ 352,706</u>

Total governmental activities expenses were \$2,259,834 and \$2,070,929 in fiscal years 2020 and 2021, respectively. The largest expenses were incurred for general government and highways and streets. The expenses do not include capital outlays, which are reflected as capital assets in the government-wide financial statements.

Program revenues are derived directly from the program itself or from parties outside the reporting government's taxpayers or citizenry. They reduce the net cost of the function to be financed from the government's general revenues. Total program revenues from governmental activities were \$592,753 in 2020 and \$499,416 in 2021. Governmental program revenues come from charges for services, which include licenses and permits, planning fees, developer fees, forfeitures, and several other revenues. Program revenues in the grants and contributions category include federal, state and local grants that are restricted for program use.

General revenues are all other revenues not categorized as program revenues and include property taxes and investment income. Total general revenues from governmental activities were \$1,951,282 in fiscal 2020 and \$1,935,369 in fiscal 2021. Approximately 99% of the Town's total general revenues comes from property taxes.

Fund Financial Statements

The fund balance for the General Fund increased from \$210,122 in FY 2020 to \$227,039 in 2021.

The Statement of Revenues and Expenditures - Budget and Actual - General Fund shows the Town raised \$1,193,107 in revenues, \$27,699 more than budgeted, while expenditures of \$840,930 were \$25,772 less than budgeted.

The fund balance for the Highway Fund increased from \$466,996 in FY 2020 to \$877,078 in 2021.

The Statement of Revenues and Expenditures - Budget and Actual - Highway Fund shows the Town raised \$1,156,098 in revenues, \$135,187 more than budgeted, while expenditures of \$664,416 were \$274,895 less than budgeted.

Capital Assets

The following is a schedule of capital assets as of June 30, 2020 and 2021.

	<u>2020</u>	<u>2021</u>
Buildings and improvements	\$ 962,948	\$ 1,012,847

Total net capital assets	<u>\$ 3,298,484</u>	<u>\$ 3,032,836</u>

The Town had \$3,298,484 and \$3,032,836 invested in capital assets, net of depreciation, on June 30, 2020 and June 30, 2021, respectively. The net decrease (including additions and deductions) between the two periods amounted to \$265,648.

This year's major capital events included:

- Garage roof repairs
- Purchase of radio system
- Purchase of radar speed signs

Long-term debt

At the end of the fiscal year, the Town had \$39,000 in long-term debt outstanding compared to \$58,500 in the prior year, an approximate 33.3% decrease. A list of outstanding long-term debt follows:

	<u>2020</u>	<u>2021</u>
Direct borrowings:		
VMBB 2012 Series 1	<u>\$ 58,500</u>	<u>\$ 39,000</u>

Fiscal Year 2022 Budget

The FY 2022 total operating budget is \$1,117,205 for the General Fund and \$973,457 for the Highway Fund (does not include school taxes). The FY 2021 total operating budget was \$1,127,045 for the General Fund and \$1,020,911 for the Highway Fund. The total decrease is \$57,294 or 2.7% under the previous year. The FY 2022 net budget (the amount to be raised by taxes) is \$1,655,222. The FY 2021 net budget (the amount to be raised by taxes) was \$1,850,208. This is a decrease of \$194,986 to the net Town budget.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all of its citizens, taxpayers, customers, and creditors. Questions concerning any of the information provided in the report or requests for additional information should be addressed to the Town of Guilford, 236 School Road, Guilford, Vermont 05301-8319.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES:

Net change in fund balance - total governmental funds	\$ 642,704
Amounts reported for governmental activities in the Government-wide Statement of Activities are different because -	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Additions to capital assets, net	73,265
Depreciation	(338,913)
Property tax revenue in governmental funds includes deferred property taxes of the prior year but excludes deferred property taxes of the current year as taxes uncollected within 60 days are unavailable at year end.	
Prior year	(109,169)
Current year	130,886
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position.	
Payments on long-term debt	19,500
Changes in net pension asset or liability and related deferred outflows/inflows of resources will increase or decrease the amounts reported in the government-wide statements, but are only recorded as an expenditure when paid in the governmental funds.	
Net (increase) decrease in net pension obligation	<u>(54,417)</u>

TOWN OF GUILFORD, VERMONT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

1. Summary of significant accounting policies:

The Town of Guilford, Vermont (the Town) was chartered in 1764. The Town is a unit of local government organized under the statutes of the State of Vermont and is governed by a Selectboard (the Board). The Town provides various services as authorized and funded by State government or Town voters.

- A. Reporting entity - The Town is a primary unit of government under reporting criteria established by the Governmental Accounting Standards Board (GASB). Those criteria include a separately elected governing body, separate legal standing, and fiscal independence from other state and local governmental entities. Based on these criteria, there are no other entities which are component units of the Town.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing *Governmental Accounting and Financial Reporting Standards* which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes U.S. GAAP for governmental units.

- B. Government-wide and fund financial statements - The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Town. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Town has no business-type activities.

In the government-wide Statement of Net Position, the financial position of the Town is consolidated and incorporates capital assets as well as all long-term debt and obligations. The government-wide Statement of Activities reflects both the gross and net costs by category. Direct expenses that are clearly identifiable with the category are offset by program revenues of the category. Program revenues include charges for services provided by a particular function or program and grants that are restricted to meeting the operational or capital requirements of the particular segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds, if any, are summarized in a single column.

- C. Basis of presentation - The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, fund balances or net position, revenues, and expenditures or expenses, as appropriate.

TOWN OF GUILFORD, VERMONT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

1. Summary of significant accounting policies (continued):

C. Basis of presentation (continued) -

The Town reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources, except those required to be accounted for in another fund.

Highway Fund - The Highway Fund is used to account for the Town's Highway department.

VCDP Grant Fund - The VCDP Grant Fund is used to account for the long-term note receivable related to a VCDP grant that was subgranted to the Algiers Family Housing Limited Partnership.

Fund Balance Reserve Fund - The Fund Balance Reserve Fund was created by the voters at the 2013 Town Meeting for the purpose of funding unanticipated revenue shortfalls and paying non-recurring and unanticipated expenditures. The Fund is maintained using annual budget surplus funds, growing at a level of not less than 5.0% and not more than 20.0% of the total General and Highway operating budgets. Any expenditure of the Fund shall require approval of a majority of the Board after due notice and a public hearing. Expenditures of the Fund for any purpose other than the defined criteria above shall require the authorization of a majority of the voters present at an annual or special town meeting.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the purchase of major facilities and equipment.

The Town also reports fiduciary funds which are used to account for assets held in a trustee capacity (trust funds) or as an agent (agency funds) for the benefit of parties outside of the Town. The Town's fiduciary funds are the Brainard S. Gale Fund, Mrs. C. A. King Fund, King & Lynde Fund and Bullock Scholarship Fund.

D. Measurement focus and basis of accounting - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become both measurable and available. "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures generally are recorded when the fund liability is incurred, if measurable, as under accrual accounting. However, debt service expenditures are recorded only when payment is made.

Property taxes are recorded as revenue in the year for which taxes have been levied, provided they are collected within 60 days after year end. Licenses and permits, fines and forfeitures, and miscellaneous revenues are recorded as revenues when received because they are generally not measurable prior to collection. Investment earnings and certain intergovernmental grants are recorded as earned. Unbilled service revenue is accrued in the Water Fund.

TOWN OF GUILFORD, VERMONT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

1. Summary of significant accounting policies (continued):

- E. Budgets and budgetary accounting - The Town approves budgets for the General and Highway Funds at the annual Town Meeting. The tax rate is determined by the Selectboard based on the education and municipal grand lists and the approved budgets. The accounting method used for budget presentation is the same method used for the financial presentation of operations under U.S. GAAP. Formal budgetary integration is employed as a management control during the year for the General and Highway Funds. The Town does not legally adopt budgets for other governmental funds. All budgeted amounts lapse at year end.
- F. Property taxes - Property taxes attach as an enforceable lien on property owned as of April 1st. Listers establish a grand list of all property and the Selectboard sets the tax rate required to raise the tax revenue authorized by Town and School District voters and the Vermont Agency of Education. Property taxes for the fiscal year ended June 30, 2021, were due in full on October 15th.
- G. Use of estimates - The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred outflows/inflows of resources as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.
- H. Risk management - The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and others; environmental liability; and natural disasters. The Town manages these risks through commercial insurance packages and participation in public entity risk pools covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. There were no settlements in excess of the insurance coverage in any of the past three fiscal years.
- I. Cash, cash equivalents and investments - The Town considers all cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition to be cash and cash equivalents. Investments and unrealized gains and losses are reflected in the individual fund and government-wide financial statements. Investments of the Town are reported at fair value using quoted prices in active markets for identical assets. This is considered a level 1 input valuation technique under the framework established by U.S. GAAP for measuring fair value. The Town does not own investments valued with level 2 or level 3 inputs, which would use quoted prices for similar assets, or in inactive markets, or other methods for estimating fair value.
- J. Capital assets - Capital assets, which include land, buildings, equipment, vehicles and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The Town does not retroactively report infrastructure assets. The Town began capitalizing newly acquired or constructed general infrastructure assets since the implementation of GASB Statement No. 34. Donated capital assets are recorded at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest costs are capitalized on projects

J. Capital assets (continued) -

during the construction period. Normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's life are not capitalized. Capital assets are depreciated using the straight-line method over the useful lives shown below:

Buildings and improvements	7 - 30 years
Vehicles and equipment	10 years
Infrastructure	20 years

K. Deferred outflows/inflows of resources - In addition to assets and liabilities, deferred outflows of resources and deferred inflows of resources are reported as separate sections in the applicable statement of net position or balance sheet. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources in the current period. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources in the current period.

L. Compensated absences - It is the Town's policy to permit employees to accumulate earned but unused vacation benefits based upon their length of employment (subject to certain carryover limitations and time restrictions). Upon retirement, termination or death, employees are compensated for these accrued benefits at their current rates of pay. These compensated absences are reported in the government-wide and fund financial statements.

M. Long-term obligations - Governmental activities report long-term debt and other long-term obligations as liabilities in the statement of net position. Governmental funds report the amount of debt issued as other financing sources and the repayment of debt as debt service expenditures.

N. Fund equity - In the fund financial statements, governmental funds may report five categories of fund balances: nonspendable, restricted, committed, assigned and unassigned.

Nonspendable fund balance includes amounts associated with inventory, prepaid expenditures, long-term loans or notes receivable, and trust fund principal to be held in perpetuity.

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed fund balance includes amounts that can be used only for specific purposes determined by the Town's highest level of decision making authority, the voters, as a result of articles passed at Annual or Special Town Meetings.

Assigned fund balance includes amounts that are intended to be used by the Town for specific purposes as authorized by the Selectboard.

Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in another classification. Deficits are also classified as unassigned.

The Town's policy is to apply expenditures against unassigned fund balance unless motions by the Selectboard specify otherwise.

TOWN OF GUILFORD, VERMONT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

2. Deposits and investments:

Fair value and classification - Deposits and investments are stated at fair value as described in note 1.I. As of June 30, 2021, the Town's investments were fully invested in mutual funds and have a fair value of \$152,398.

Custodial credit risk - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of another party. Charles P. Wood Fund	<u>5,370</u>
	<u>\$ 17,670</u>

11. Deficit fund balances:

As of June 30, 2021, the VCDP Grant Fund has a deficit fund balance of \$14,738. Management intends to recover this deficit through future grant revenues and a local match from the General Fund.

As of June 30, 2021, the Emergency Response Fund, a non-major fund, has a deficit fund balance of \$5,700. Management intends to recover this deficit through grant revenues and a future transfer from the Fund Balance Reserve Fund.

As of June 30, 2021, the Recreation Fund, a non-major fund, has a deficit fund balance of \$566. Management intends to recover this deficit through a future transfer from the Fund Balance Reserve Fund.

12. Pension plan:

Vermont Municipal Employees' Retirement System -

Plan description: The Town contributes to the Vermont Municipal Employees' Retirement System (VMERS or the Plan) a cost-sharing multiple-employer public employee retirement system with defined benefit and defined contribution plans, administered by the State of Vermont. The State statutory provisions, found in Title 24, Chapter 125, of the V.S.A., govern eligibility for benefits, service requirements and benefit provisions. The general administration and responsibility for the proper operation of VMERS is vested in the Board of Trustees consisting of five members. VMERS issues annual financial information which is available and may be reviewed at the VMERS' office, 109 State Street, Montpelier, Vermont, 05609-6200, by calling (802) 828-2305 or online at <http://www.vermonttreasurer.gov>.

Benefits provided: VMERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits do vary between the groups included in the Plan, but are determined for the members of each group as a percentage of average compensation in a certain number of the highest consecutive years of service. Eligibility for benefits requires five years of service.

Contributions: Defined benefit plan members are required to contribute 3.0% (Group A), 5.375% (Group B), 10.5% (Group C) or 11.85% (Group D) of their annual covered salary, and the Town is required to contribute 4.5% (Group A), 6.0% (Group B), 7.75% (Group C) or 10.35% (Group D) of the employees' compensation. Defined contribution plan members are required to contribute 5.0% of their annual covered salary and the Town is required to contribute an equal dollar amount. The contribution requirements of plan members and the Town are established and may be amended by the Board of Trustees. The Town's contributions to VMERS for the years ended June 30, 2021, 2020, and 2019, were \$23,546, \$27,546, and \$23,223, respectively. The amounts contributed were equal to the required contributions for each year.

TOWN OF GUILFORD, VERMONT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

12. Pension plan (continued):

Vermont Municipal Employees' Retirement System (continued) -

Pension liabilities, deferred outflows of resources, deferred inflows of resources: These financial statements include the Town's proportionate share of the VMERS net pension liability, deferred outflows of resources for pension expense, deferred inflows of resources from investment earnings and contributions, and the related effects on government-wide net position and activities. The State of Vermont has provided the following information to all employers participating in VMERS, which is based on its calculation of the Town's 0.13291% proportionate share of the VMERS defined benefit plan.

Town's share of VMERS net pension liability	\$ 336,226
Deferred outflows of resources - Deferred pension expense	\$ 145,174
Deferred inflows of resources - Deferred pension credits	\$ 10,284

Additional information: VMERS obtains an annual actuarial valuation for the pension plan. Detailed information is provided in that report for actuarial assumptions of inflation rates, salary increases, investment rates of return, mortality rates, discount rates, and the calculations used to develop annual contributions and the VMERS net position.

The Town adopted GASB Statement No 68 in FY 2015 and is developing the ten years of required supplementary information in schedules 3 and 4. This historical pension information includes the Town's Proportionate Share of Net Pension Liability of VMERS and Town's Contributions to VMERS.

13. Subsequent events:

The Town has evaluated subsequent events through October 4, 2021, the date on which the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

The Selectboard
Town of Guilford, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Guilford, Vermont (the Town) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated October 4, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this report is not suitable for any other purpose.
