

ALGIERS VILLAGE BICYCLE & PEDESTRIAN TRAFFIC CALMING STUDY

LOCAL CONCERNS MEETING

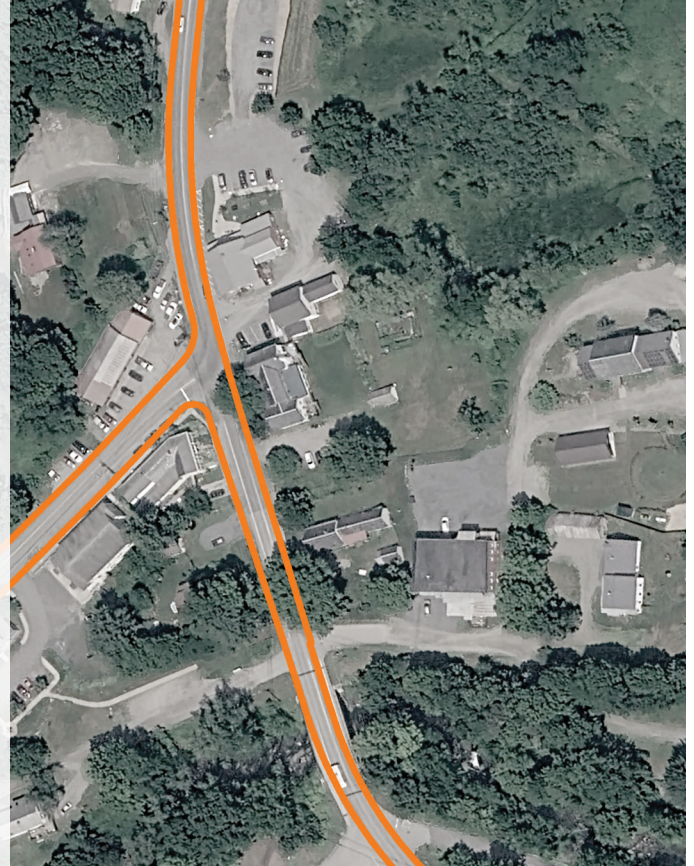

THURSDAY, NOVEMBER 12, 6:30-8:00 PM

Guilford has been working to improve safety and access in Algiers Village. The goal is to move forward with practical ways to create safer connections among homes, businesses, and Town facilities such as the Community Park, public trails, and more. For example, improving the network of the Village sidewalks and crossings, **and slowing traffic on Route 5.**

As part of this work, Guilford has started a new Scoping Study that is funded through the Vermont Agency of Transportation and the Town of Guilford, in partnership with the Windham Regional Commission.

The next step in this study is speaking with residents at a public "Local Concerns Meeting," during which the project team will lead a discussion on **pedestrian, cyclist, and motorist needs and opportunities in Algiers.**

Your feedback is vital to shaping the future of Algiers Village. We hope to see you!

- ☀ **Thursday, November 12, 2026**
- ☀ **6:30 PM to 8:00 PM**
- ☀ **Broad Brook Community Center
3940 Guilford Center Road**
